

Please do not take away my local KLOVE radio station. I currently listen to it on 91.1 in the Madera California area. This station is a refreshing alternative to the styles of music now available on local radio stations. It is safe for the whole family and is uplifting in times of need. I can't tell you how many times a song from KLOVE will pop into my head during a particular troublesome time. It keeps me grounded in my faith and connects me to others around the world who are listening to the exact same song at the exact same time. It is necessary in our communities today to have something to retreat to that is powerful and uplifting. I especially enjoy the fact that a certain DJ on the station is someone I used to listen to on a secular station when I was growing up. I find comfort in the fact that he is a Christian and by hearing him on the radio I feel that there is a kind of connection to this global station to my local area. I am certain that there are others out there that feel the same way. In this day and age, I feel that this service is vital. We need a safe place to go to. A place to hear productive music. A place for encouragement and prayer. It is so cool to know that when someone is praying on air..that it is being prayed by so many at that exact same time. I don't listen to regular radio anymore unless I don't have a choice. If it is my choice...it will always be KLOVE.

Please do not take away my KLOVE
